

1 Clause AIM 10/07

- 1.1 It is necessary for the Participant when they become aware of an event 'held covered' under this Takaful to give immediate notice to the Takaful Operator and the right to such cover is dependent upon compliance with this obligation.*
- 1.1 No repair work should be commenced before survey has been conducted by a surveyor nominated by the Takaful Operator and approval of the estimates of the cost of repairs except immediate repairs for the purpose of averting or minimizing loss.*
- 1.2 In no case the Takaful Operator is held liable for any consequential loss whatsoever including loss profits, hire charges, fishing time, etc.*
- 1.3 The Participant should all times follow the manufacturer's recommendations for the operation maintenance, servicing and repairs of all machinery and equipment of the vessel and it is warranted that such maintenance servicing and repairs should be carried out only by the manufacturer's authorized service centers and proper records should be maintained.*
- 1.4 When the vessel is anchored, laid up or berthed, sufficient watch and ward personnel should be on board at all times.*
- 1.5 Cancellation returns only.*

2. Warranties: -

- 2.1 Vessel certified seaworthy and such conditions of seaworthiness continued for the duration of this policy. It is further warranted that the skipper/ navigator/navigators and crew of the vessel is/are sufficiently well acquainted with the customary course of navigation in this voyage/area of operation insured hereby and to be able to navigate/conduct/operate the vessel in safety through its ordinary perils. Further, the vessel should be manned with a crew adequate for such safe navigation/conduct/operation.*
- 2.2 Vessel to be strictly manned as per the requirements of the latest Maritime Regulations issued by the Transport Ministry of the Govt. of the Republic of Maldives (Including vessel's Safety Certificate, Passenger Carrying Certificate and Load Line Certificate kept current at all times during the policy insurance period) from time to time and any other government authority*
- 2.3 Vessel not to carry any hazardous goods/items other than what is necessary for normal voyages for which the vessel is certified. In the event any other goods are required to be carried on board insurers to be informed and special survey to be carried out to certify fitness to carry these goods.*
- 2.4 That the Vessel shall not be employed during adverse weather conditions notified by the Meteorological Department or any such governmental body.*
